HACKATHON

Over the past few years, we have developed a hackathon culture at the Pune Institute of Computer Technology. It all started with SIH 2017 where we had two participating and one winning team. Participation progressively improved in the coming years in SIH 2018 (5 winning teams, 14 participating teams), SIH 2019 (11 winning teams, 22 participating teams), SIH-2020 (1 winner team, 2 participating teams), SIH 2022 (6 winning teams, 13 participating teams) with a prize of amount Rs. 1,00,000/- for each team. Along with these, our students have also found success in hackathons like Singapore India International Hackathon 2019, 2020, Hack the North: Canada Hackathon-2019, D3 Code Hackathon-2019 and NPCI Hackathon-2019. Additionally, students are always enthusiastic about participating in various hackathons conducted by the industry or by other institutes.

Two students won the prize of 10,000$ in the global better health hackathon. Four students participated in the UNESCO INDIA – AFRICA International hackathon and two students won a prize of amount Rs. 3,00,000/-.
